## Specialty Handtools & Products Division Info

BTI Inc has been in the Hand tools, Aerospace, Machining & Metal working trade since 1967. We also specialize in industrial hand tools, stainless tools and production of structural metal working and CNC parts machining. We use the latest technology CNC Vertical Mills, twin turret lathes with live tooling attachments. Our CNC milling machines can machine 2D and 3D and 4<sup>th</sup> & 5<sup>TH</sup> axis parts with the highest accuracy. We have a fully equipped manufacturing facility that can handle just about any size job from small parts to large structural projects. We have a trained engineering staff to translate your sketch, drawing or plan into a quality machined part. We are competent in most all grades of materials such as steel, stainless metals, aluminum and exotic metals including titanium. We use the latest NC programming software from SURFCAM CAD/CAM and SolidWorks 3D .

You may fax, call or e-mail me with your specific requirements in detail. This will allow me to generate the fastest and most accurate quote for you.

Your trust is our most important asset. With all projects assigned to BTI Inc, your product's confidentiality is our priority. We also provide overnight and priority shipping, so your projects will arrive to you as quickly as possible. We proudly use the latest software technology, including: Sincerely,

BTI Inc Design Team

We look forward to talking to you about your next project
